

ASHEEN SHAMSUDEEN SHAMS

SENIOR FULL STACK DEVELOPER / PL/SQL DEVELOPER

Abu Dhabi, UAE | +971 501422409 | asheenshams@gmail.com | <http://www.linkedin.com/in/asheens>

PROFESSIONAL SUMMARY

Dynamic Senior Full Stack Developer with over 9 years of experience in Full Stack Development using C#, SQL, and modern web frameworks. Expert in leveraging Agile Methodologies and SDLC to deliver high-quality software solutions. Proven track record in delivering scalable web applications with strong skills in Stakeholder Interaction and cross-functional collaboration. Strong expertise in Oracle PL/SQL backend development and .NET Core API services for enterprise systems with focus on performance, scalability, and secure integration. Proficient in cloud technologies including Azure and AWS.

CORE SKILLS

Technical: Full Stack Development, C#, SQL, JavaScript, AngularJS, Web API, .NET Core, HTML, CSS, JSON, Python, Java, XML, MySQL, Microservice, jQuery, TypeScript, NodeJS. RESTful API Development using .NET Core, Backend Service Architecture & API Security (JWT, Role-based access)

Cloud & DevOps: Azure, AWS, Oracle Cloud, Docker, Kubernetes, Jenkins

Methodologies: Agile, Scrum, SDLC, Stakeholder Interaction, Project Planning

Reporting & Analytics: Power BI, SSRS, Crystal Reports, Data Cube Analysis

Integration: Web Services (SOAP, REST), Healthcare Systems.

Database Administration: Oracle PL/SQL, SQL Server, PostgreSQL, MySQL

Performance Optimization: Query Tuning, Indexing, Stored Procedures, Triggers, Execution Plan Analysis (Oracle & SQL Server), Database Performance Tuning

Reporting & Analytics: Power BI, SSRS, Crystal Reports.

Project Methodologies: Agile, Scrum, ITIL, SDLC, CI/CD Pipelines

WORK EXPERIENCE

Senior Software Developer

Abu Dhabi, UAE

Qdata Limited

Oct 2025 – Till

- Accomplished 60% decrease in loading time by optimizing large-scale MT5 modules using Python.
- Implemented FAST APIs integration and data engine for fast data transfer.
- Add more improvements in Audit systems and created pipeline for daily report.
- Post-Implementation Application Support & Production Issue Fixes
- Collaborated with Front-end, QA, and DevOps teams to ensure smooth releases and defect resolution.
- Participated in code reviews, unit testing, and technical documentation activities.
- Provided post-deployment production support and resolved critical application issues.

Senior Full Stack Developer

Abu Dhabi UAE

Enterprise Systems Analysis Technology [ESAT]

Jul 2024 -Sep 2025

- Accomplished 20% decrease in loading time by optimizing large-scale ERP modules using C# and AngularJS.
- Delivered 100% on-time project rollouts by managing end-to-end Full Stack Development lifecycle.
- Enhanced client database management by 30% through efficient SQL scripting and executed custom reports.
- Effectively engaged with stakeholders, improving product requirement clarity.
- Created responsive UI designs, resulting in a 15% increase in user engagement.
- Implemented REST APIs integration, streamlining data exchange.
- Improved ERP performance by deploying solutions on Oracle Cloud.
- Developed backend services and business logic using .NET Core and Oracle PL/SQL.
- Optimized database procedures and complex queries for high-volume transactional systems.
- Ensured security, scalability, and maintainability of backend services.

Senior Software Engineer & Tech Lead

Abu Dhabi UAE

Smart Software Systems and Solutions

May 2022 -Jun 2024

- Improved process efficiency by 25% by introducing automation in HR and Payroll modules utilizing ASP.NET MVC and C#.
- Successfully integrated biometric solutions, enhancing attendance monitoring by 40%.
- Developed robust asset management systems, reducing tracking errors by 35%.
- Facilitated an improved development lifecycle through Agile practices.
- Architected scalable solutions with HTML, SQL Server, and CSS.
- Enhanced system security by implementing strategies based on stakeholder feedback.
- Regularly updated system documentation, maintaining 95% accuracy in client records.
- Enhanced employee profile creation by integrating Emirates ID, streamlining data accuracy and compliance.

- Simplified the interview and onboarding process through automated employee record management.
- Improved overall employee profile handling by consolidating attendance, payroll, and loan modules into a unified system.

Senior Software Engineer

Kerala, India

Simplogics Solutions

Jan 2021-Jun 2022

- Developed 10+ backend APIs, boosting application interoperability with .NET Core.
- Reduced manual report creation by 50% via SSRS automation.
- Migrated stored procedures and functions from MS Server to PostgreSQL enhancing performance.
- Transitioned reporting framework from Crystal Reports to SSRS, standardizing reporting processes and improving performance and maintainability.
- Enhanced legacy system reporting by generating SSRS reports, ensuring data consistency and accessibility.
- Collaborated in Agile sprints, ensuring timely delivery of inventory management features.
- Increased report generation efficiency by 30% through advanced data visualization in Power BI.
- Facilitated data-driven decisions by providing in-depth analytics.
- Leveraged PostgreSQL for optimized database performance.
- Led the transition of legacy POS and Inventory systems to a modernized architecture, improving scalability, system stability, and data synchronization.
- Implemented microservices using Azure Service Fabric, enabling high availability, scalability, and simplified system orchestration.
- Successfully deployed microservices architecture, enhancing modularity.

Software Engineer

Kerala, India

ARS T&TT

Nov 2019 - Dec 2020

- Successfully rolled out a municipal parking permit solution, gaining 25% rise in system reliability.
- Streamlined document distribution with .NET Core microservices.
- Drafted documentation for sustainable application support and updates.
- Developed a full-featured Customer Relationship Management (E-CRM) system for a leading IT partner from concept to deployment.
- Implemented core modules including Customer Registration, a Ticketing System, and an AMC Reminder system.
- Integrated Power BI reports into the CRM system, giving clients real-time visibility into key business metrics.
- Designed and integrated REST APIs to facilitate communication between various microservices and the front-end interface.
- Deployed the application on a Linux server, ensuring robust performance and security for client data.
- The implemented ticketing system improved customer issue resolution time by an average of 60%.

.NET Developer

Kerala, India

Ironns Technologies Pvt Ltd

Jul 2016 - Oct 2019

- Contributed to seamless .NET projects consistently meeting deadlines.
- Collaborated in teams to enhance project outcomes.

EDUCATION

Master of Computer Applications I University of Kerala I 2014

Bachelor of Computer Application I Mahatma Gandhi University I 2010

CERTIFICATIONS

- Atlassian Agile Project Management Professional Certificate
- SQL Advanced Certification I Hackerrank.com
- Oracle Cloud Infrastructure Foundations Certificate
- Project Management Professional Certification I Udemy.com
- Anaconda Python for Data Science Professional Certificate

PERSONAL DETAILS

- Date of Birth: 31/ 05/1989
- Nationality: Indian
- Marital Status: Married
- Notice Period: Immediately Available (Abu Dhabi, UAE)
- Driving License: Valid UAE License
